CAREER OBJECTIVE

Former IT Instructor with over 8 years of experience in teaching programming, networking, and computer fundamentals, now seeking to transition into an IT-related or administrative role. Eager to apply strong technical knowledge, communication skills, and organizational abilities in a dynamic work environment. Open to opportunities in systems support, technical documentation, IT coordination, or office administration.

EDUCATION

Master in Information Technology
University of the Cordilleras, Baguio City
Graduated: 2018

WORK EXPERIENCE

IT Instructor
Computer Arts and Technological College, Inc.
June 2014 - May 2023

- Delivered lectures and hands-on training in subjects such as Programming, Web Development, Networking, and Computer Applications to undergraduate students.
- Developed course materials, lesson plans, and assessment tools aligned with curriculum standards and industry trends.
- Assessed student performance, provided academic guidance, and maintained accurate records of grades and attendance.
- Mentored students on thesis/project development, helping them apply theoretical knowledge to real-world scenarios.
- Utilized LMS platforms (e.g., Google Classroom, Moodle) and productivity tools (e.g., MS Office, Google Workspace) for remote and blended learning delivery.

TECHNICAL SKILLS / TOOLS

- Programming Languages: PHP, JavaScript
- Web Development: HTML, CSS, Bootstrap

PROJECTS

Relief Goods Allocation Using Decision Matrix Analysis of DSWD Records

Technologies: PHP, MySQL, Bootstrap

Developed a web-based system designed to support decision-making in the distribution of relief goods based on DSWD records. Improved allocation efficiency through automation and matrix evaluation.
